01 Chassis plate

Print 1 4 thick (the wing is 2 thick)

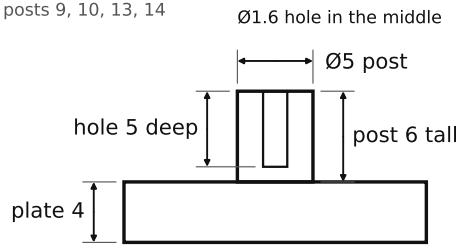

TOP VIEW (looking down on it)

ONE POST, CUT IN HALF

posts 9, 10, 13, 14

HOLE LIST

from back = from the back edge **from right = from the right side edge** **both measured to the centre**

#	from back	from right	size
1	6	30	Ø4.0 insert hole, through
2	7	14	Ø4.0 insert hole, through
3	7	46	Ø4.0 insert hole, through
4	13	30	Ø4.0 insert hole, through
5	17.3	4.5	Ø2.2 hole, through
6	17.3	55.5	Ø2.2 hole, through
7	36.7	4.5	Ø2.2 hole, through
8	36.7	55.5	Ø2.2 hole, through
A	38	30	3 x 8 cutout, through

#	from back	from right	size
9	43.8	7.8	Ø5 post 6 tall, Ø1.6 x 5 deep
10	43.8	52.2	Ø5 post 6 tall, Ø1.6 x 5 deep
11	57	57.5	Ø3.2 hole, through
B	61	68	15 x 10 cutout, through
12	64	57.5	Ø3.2 hole, through
13	108.2	7.8	Ø5 post 6 tall, Ø1.6 x 5 deep
14	108.2	52.2	Ø5 post 6 tall, Ø1.6 x 5 deep
15	119	49	Ø6 hole, through
16	130	20	Ø3.4 hole, through

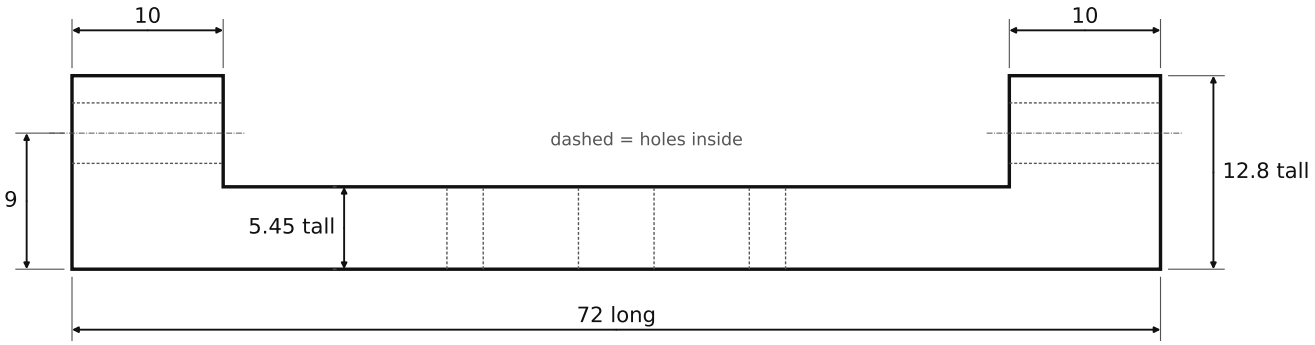

#	from back	from right	size
17	130	40	Ø3.4 hole, through
18	147	21.25	Ø1.6 hole, through
C	147	35.2	12.8 x 23.4 cutout, through
19	147	48.9	Ø1.6 hole, through
20	169	17	Ø3.4 hole, through
21	169	24	Ø4.0 insert hole, through
22	169	36	Ø4.0 insert hole, through
23	169	43	Ø3.4 hole, through

"through" = cut all the way through the 4 thick plate. Ø4.0 insert hole = a plain Ø4.0 hole, no threads (a brass insert is melted in after printing).

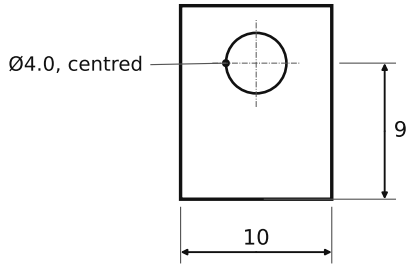

02 Steering beam

Print 1, flat on its bottom all edges rounded 0.6

FRONT VIEW (looking at it from the front of the car)

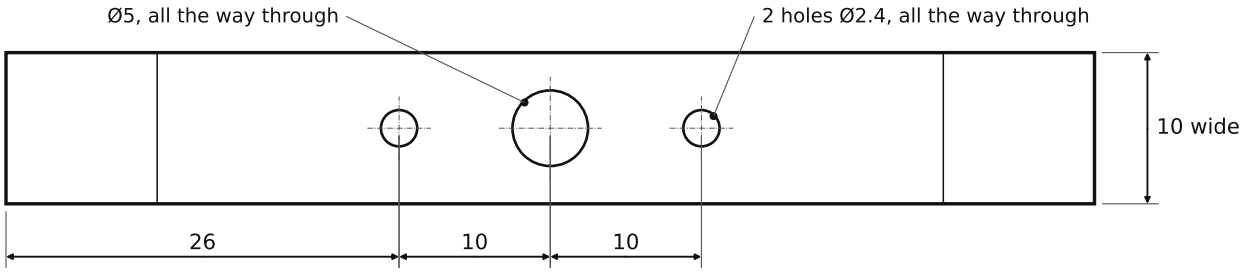

END VIEW (from the side)

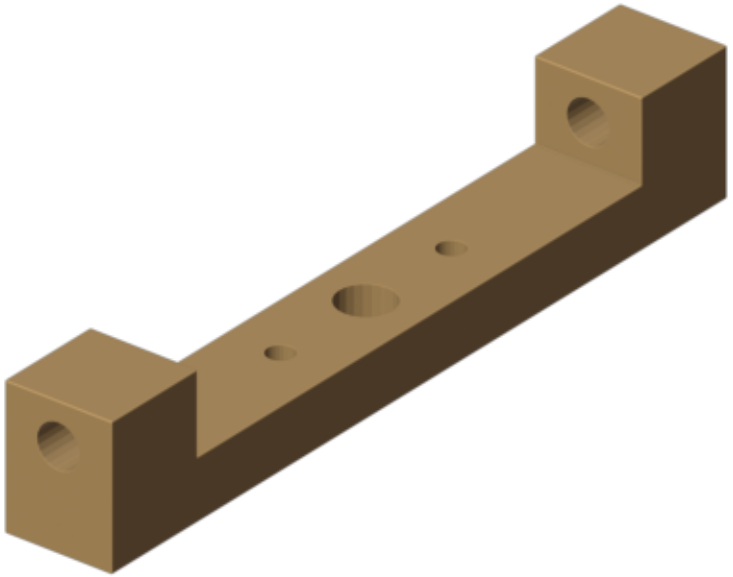

goes all the way
through the end (10)

TOP VIEW (looking down)

all 3 holes sit in the middle of the 10 width

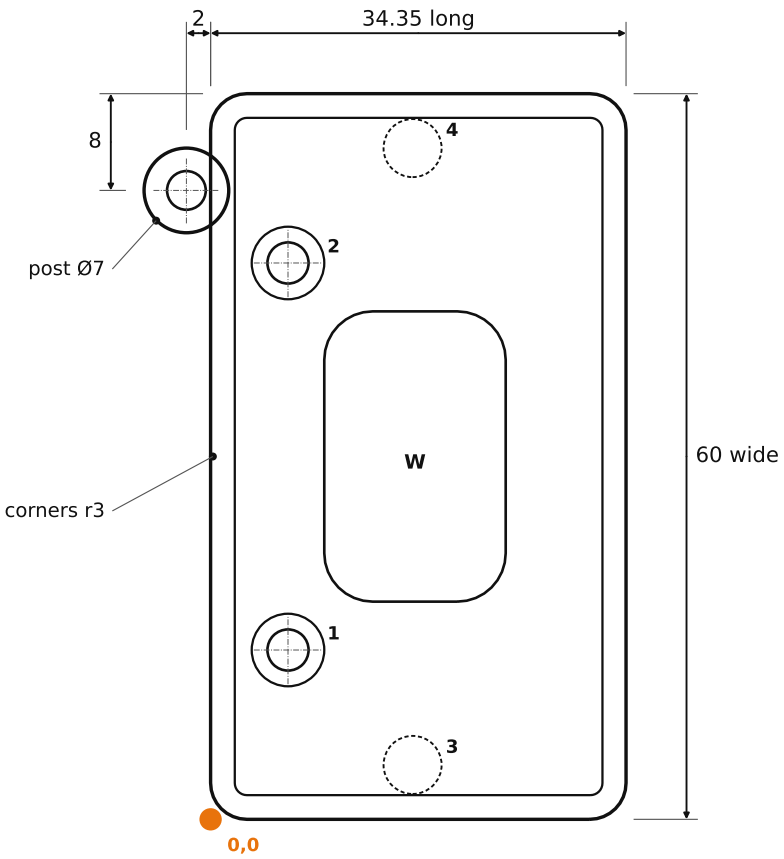

The part

03 Battery tray

Print 1, floor down

TOP VIEW (looking down)

inside: 30.4 x 56

FRONT →

walls 2 thick (front 1.95), inside corners r1

dashed circles 3 and 4 are on the bottom

SIDE VIEW (from the right side)

dashed = top of the floor

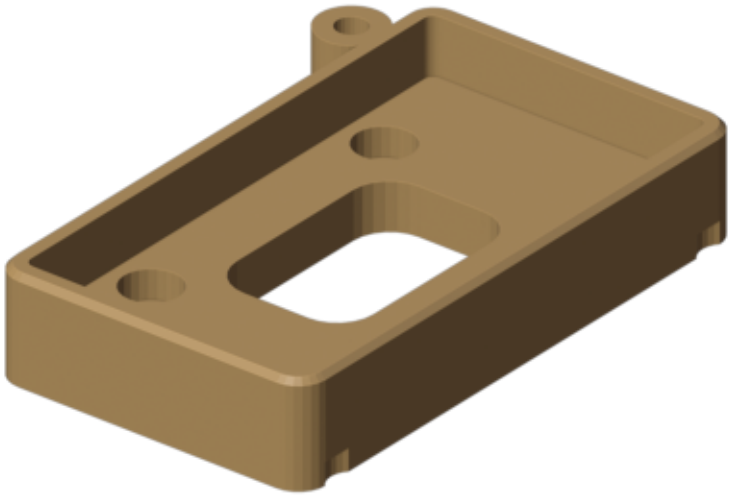

top outside edge: 0.6 chamfer

HOLES (from the back edge / from the right edge, to the centre)

#	from back	from right	size
1	6.4	14	Ø3.4 hole + Ø6 step: hole all the way through, step 3 down
2	6.4	46	Ø3.4 hole + Ø6 step: hole all the way through, step 3 down
3	16.7	4.5	Ø4.8 pocket: 2.3 up from the bottom
4	16.7	55.5	Ø4.8 pocket: 2.3 up from the bottom
W	16.9	30	15 x 24 window, r4 corners: all the way through
post	-2	52	Ø7 post, Ø3.2 hole: post 11 tall, hole 8 down

post "from back" is -2: its centre is 2 behind the back edge

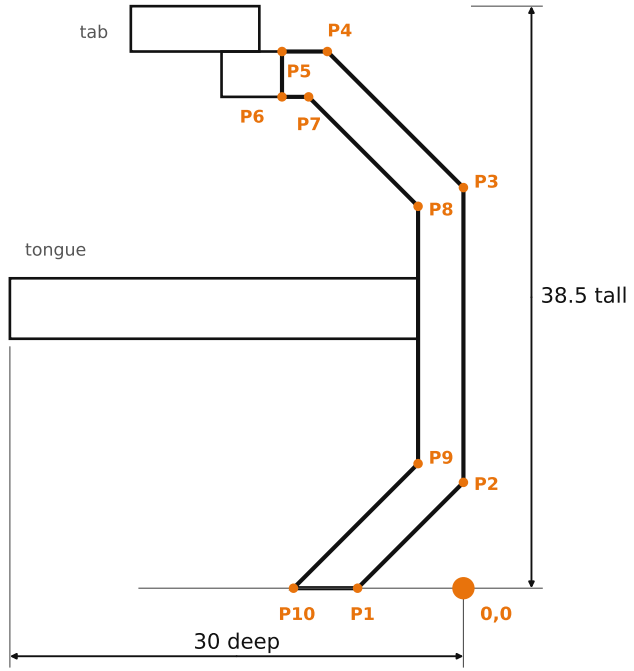

The part

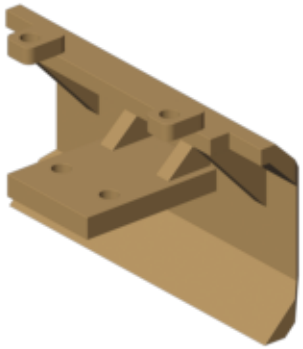

04 Front bumper

Print 1, front face down wall 3 thick all edges rounded 0.9

SIDE SHAPE (from the right side)

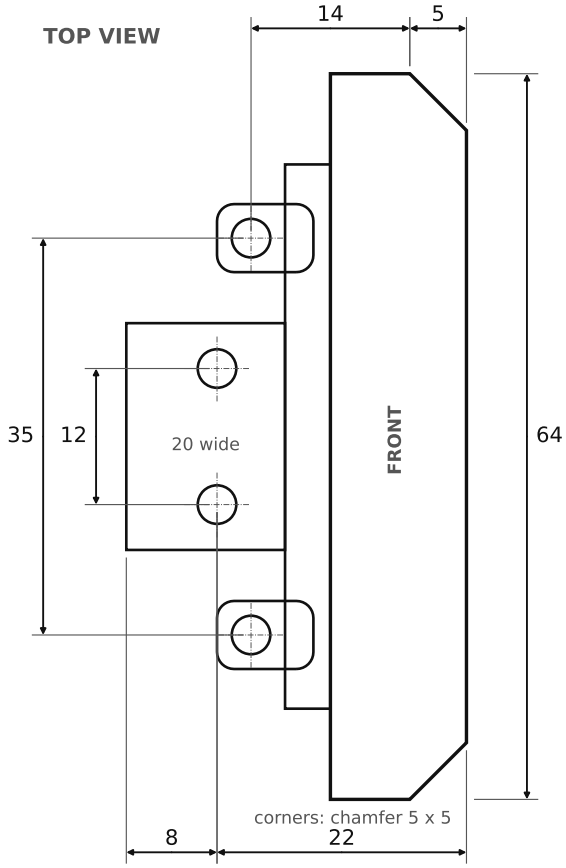

connect P1 to P10, then extrude 64

The part (from behind)

TOP VIEW

all 4 holes Ø3.4,
all the way through

SIDE SHAPE POINTS

in = back from the front face, up = up from the bottom

pt	in	up	pt	in	up
P1	7	0	**P6**	12	32.5
P2	0	7	**P7**	10.24	32.5
P3	0	26.5	**P8**	3	25.26
P4	9	35.5	**P9**	3	8.24
P5	12	35.5	**P10**	11.24	0

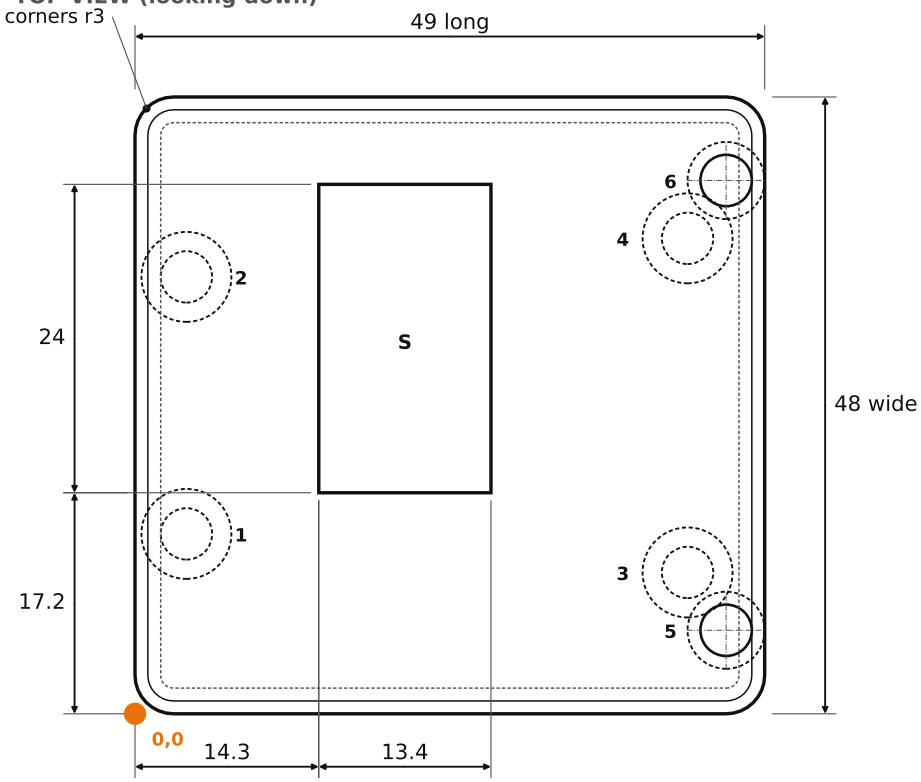

ADDED PIECES (in / up from the side shape, "out" = out from the middle line)

piece	in	up	width
tongue	3 to 30	16.5 to 20.5	20 wide, centred
top lip	12 to 16	32.5 to 35.5	48 wide, centred
2 tabs	13.5 to 22	35.5 to 38.5	6 wide, centred 17.5 out, corners r1.5
2 middle braces	triangle (12, 20.5) (3, 20.5) (3, 28.5)		3 wide, from 5.5 to 8.5 out
2 end braces	(16, 32.5) (10.24, 32.5) (3, 25.26) (3, 18.5)		3 wide, from 19.5 to 22.5 out

05 Servo box

Print 1, upside down (top on the bed) open bottom

TOP VIEW (looking down)

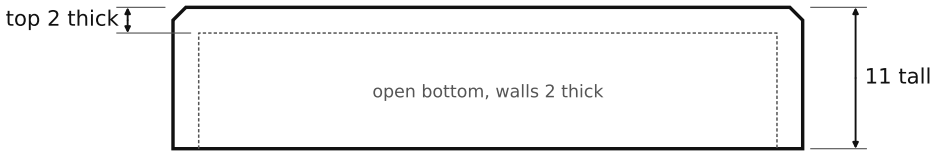

dashed = inside, under the top

FRONT

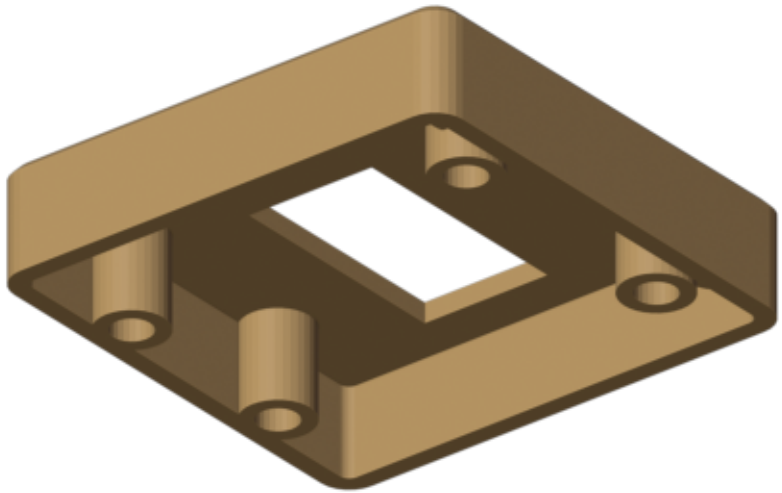

HOLES (from the back edge / from the right edge, to the centre)

#	from back	from right	size
1	4	14	Ø7 post, bottom to top. Ø4.0 hole 6 deep from bottom
2	4	34	Ø7 post, bottom to top. Ø4.0 hole 6 deep from bottom
3	43	11	Ø7 post, bottom to top. Ø4.0 hole 6 deep from bottom
4	43	37	Ø7 post, bottom to top. Ø4.0 hole 6 deep from bottom
5	46	6.5	Ø6 post, 3 up to the top. Ø4.0 hole 8 deep from top
6	46	41.5	Ø6 post, 3 up to the top. Ø4.0 hole 8 deep from top
S	21	29.2	13.4 x 24 servo hole, through the top

SIDE VIEW (from the right side)

top outside edge: 1 chamfer inside corners r1

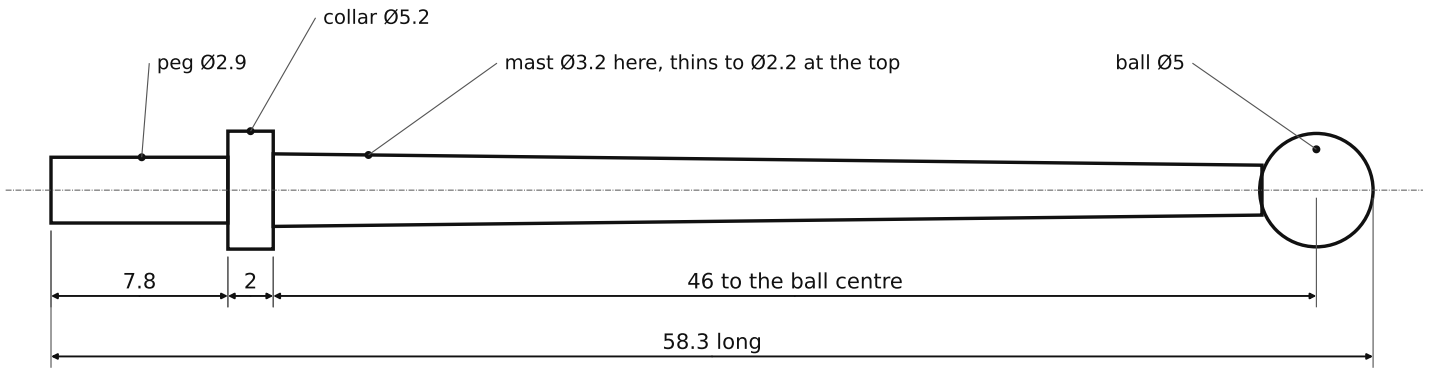

The part (from below)

06 Antenna

Print 1, lying on its side just for looks

SIDE VIEW (it is round all the way along: every Ø is a circle)

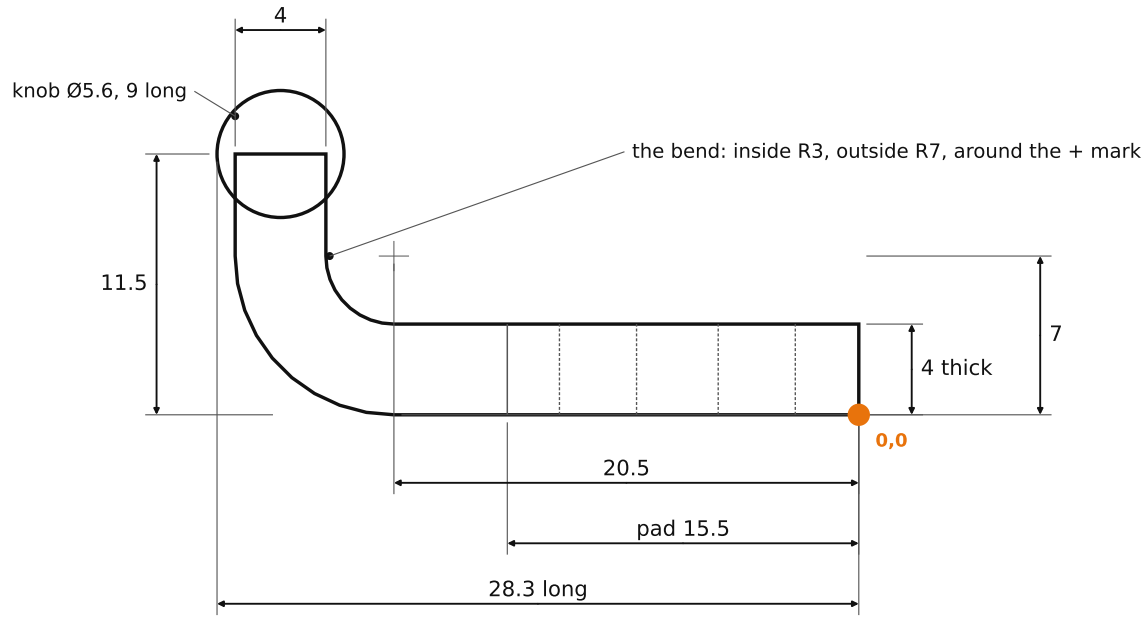

The part

07 Tow hook

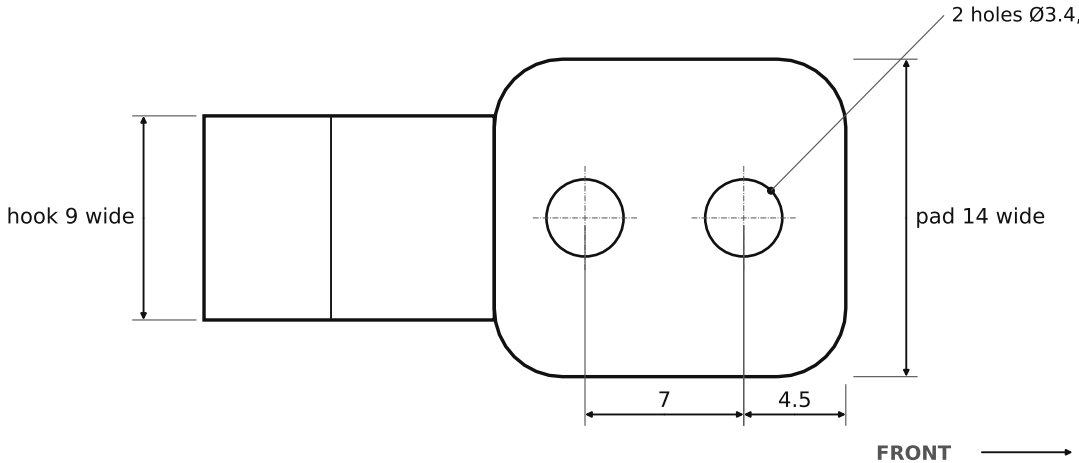

Print 1, on its flat bottom all edges rounded 0.8

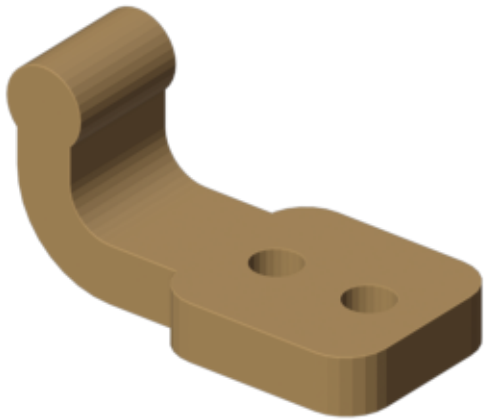

SIDE VIEW (from the right side)

20.5 and 7 go to the + mark (the bend centre)

TOP VIEW (looking down)

The part
